PERSONAL PROJECTS

Portfolio

- <https://portfolio-mehrahemant.vercel.app/>
- Built a portfolio website using React and SCSS, showcasing my works and skills.
- Implemented a clean and modern design to showcase my projects and contact information.
- Developed responsive design to ensure the website looks great on different devices.

Learning Dashboard

- <https://zen-student-portfolio-client.vercel.app/class>
- Developed a student dashboard using React to create a smooth and responsive user interface.
- Implemented Node.js on the back-end to handle data management and server-side logic.
- Created features for students to check their progress and class data, enhancing their overall learning experience.

Real-Time Chat Application

- <https://chat-app-pi-lime.vercel.app/>
- Developed a real-time chat application using React and Node.js with Socket.io for bi-directional communication.
- Implemented event-driven architecture, allowing users to see messages in real-time as soon as they arrive, similar to WhatsApp group chats.

Project Name

- <https://Crm-Client-Tau.Vercel.App/Login>
- Developed frontend of CRM application using React.js, providing a user-friendly interface *Increased user engagement and satisfaction by creating an intuitive and visually appealing interface.*
- Managed backend functionality of CRM application using Node.js *Ensured seamless and efficient connection between the application and database*
